

# RECRUITMENT NOTICE

REC-2331

-25/ADC/DG/DH/DH.D/DH.D/

In terms of staff reinforcement, Cameroon Airports Plc (S.A.) is seeking a **Senior Electro-mechanical Technician** with the following skills:

## JOB POSITION :

### Electro-mechanical Technician

#### **1. Job Purpose**

Reporting to the Chief of Service, the Senior Electro-Mechanical Technician is responsible for all activities relating to the operation and maintenance of electro-mechanical equipment (baggage conveyors, telescopic corridors, escalators, check-in counters, lamp posts with winch systems, large freight doors, etc). This equipment is powered by electricity

#### **Duties and responsibilities**

- Install new utilities (baggage conveyors and telescopic);
- Perform mechanical editing of machines and establish electrical connections after assembly;
- Perform preventive maintenance, checking the condition of mechanical systems, electrical circuits, motors, mechanical components and automation elements. Test electrical circuits using specialised measuring devices to check for issues such as temperature changes, unusual vibrations or power fluctuations;
- Perform corrective maintenance (accurately diagnose the cause of the failure and repair or replace defective components);
- Diagnose and resolve problems related to incorrect equipment operation (e.g. overheating, deformation and wear);
- Update systems by implementing new technologies.
- Ensure compliance with current electromechanical safety standards and measures.
- Perform preventive maintenance on equipment following the manufacturer's instructions and adhere to the maintenance schedule (e.g. cleaning, checking electrical circuit insulation, lubrication and servicing the bearings, bushings, belts and chains), and mechanical system adjustments);

#### **2. Required profile**

##### **❖ Qualification and experience**

- Hold a GCE A' levels +2 in electro-mechanics;
- At least 2 years experience in a similar position.

❖ **Technical skills**

- Have a good understanding of how electric systems operate;
- Have a good command of the various aspects of industrial mechanics;
- Have a good command of diagnostic tools.
- Have knowledge of technical language in English and French ;
- Have a good command and understanding of electric diagrams and mechanic drawings and assembly drawings;
- Have a command of safety standards in the field of electromechanics.

❖ **Behavioural skills**

- Availability;
- Good autonomy, sense of responsibility;
- Good interpersonal skills, listening skills and human relations skills;
- Team spirit, rigour, precision, reliable and cooperative;
- Sense of integrity and ethics;
- Proactive, creative and able to take initiative;

❖ **Other criteria**

- Not more than 35 years of age

**3. Working conditions**

- Job location : Douala International Airport
- Type of contract : Permanent contract
- Salary : Following the Cameroon Airports Plc. Grid.

**4. How to apply?**

Interested candidates should submit their application file by **September 26, 2025**, at the latest, either by email to [service.courrier@adcsa.aero](mailto:service.courrier@adcsa.aero) (specifying the job position title in the subject line) or to the ADC SA Mail Service. The file must include the following documents:

- A handwritten cover letter addressed to the General Manager;
- A detailed Curriculum Vitae ;
- A copy of a valid National Identity Card ;
- A photocopy of the diplomas required;
- Any document attesting to a previous professional experience.
